Area in Dallas to be sprayed for West Nile Virus

Dallas – Mosquito samples in Dallas have tested positive for the West Nile Virus. Weather permitting, the area(s) described below are scheduled for mosquito control spraying between 9 p.m. and 5 a.m. each night from Saturday, August 2nd to Sunday, August 3rd.

Control Area: The area to be sprayed is within an area generally bounded by: 3500 MERRELL ROAD (75229) (Council District: 13): **ROYAL LANE** on the north, **WEBB CHAPEL ROAD** on the west, **BETTY JANE LANE** on the east, and **WALNUT HILL LANE** on the south.

Control Area: The area to be sprayed is within an area generally bounded by: 3008 VALLEY LAWN (75229) (Council District: 13): **NORTHVIEW LANE** on the north, **MARSH LANE** on the west, **PINOCCHIO DRIVE** on the east, and **MEADOWDALE LANE** on the south.

Control Area: The area to be sprayed is within an area generally bounded by: 9900 SILVERTREE DRIVE (75243) (Council District: 10): **MORGAN MEADOW LANE** on the north, **PLEASANT VALLEY DRIVE** on the west **WHITE ELM ROAD** on the east, and **FOREST LANE** on the south.

Control Area: The area to be sprayed is within an area generally bounded by: 4700 YANCY STREET (75216) (Council District: 7): **LINFIELD ROAD** on the north, **SOUTH CENTRAL EXPRESSWAY** on the west **SAIPAN STREET** on the east, and **SOUTH GREAT TRINITY FOREST WAY** on the south.

Control Area: The area to be sprayed is within an area generally bounded by: 3400 GRAFTON AVENUE (75211) (Council District: 1): **BURLINGDELL AVENUE** on the north, **BURNS AVENUE** on the west **SOUTH RAVINIA DRIVE** on the east, and **JUNE DRIVE** on the south.

While the Environmental Protection Agency approves the insecticide for treatment, residents in the above areas should avoid contact with the spray by staying indoors. People

inside a vehicle while trucks are actively spraying should remain in their vehicles with the windows up and the air conditioner on until the trucks pass through, and the spray is no longer visible. People who are out during the scheduled spraying time should be alert for trucks and should not follow them. Residents who come into contact with the spray are advised to wash the affected area thoroughly with soap and water. The spray breaks down quickly in the presence of sunlight and has no residual effect.

Protection against mosquito bites

Dallas residents are urged to take precautions against mosquito bites by reducing outdoor activity during the evening and nighttime hours. Residents who are outside during these times should cover their arms and legs and use a mosquito repellent.

Prevent mosquito breeding

Residents should eliminate standing water to prevent mosquito breeding and the spread of West Nile Virus. Breeding places for mosquitoes include swimming pools that are not kept clean, stagnant ponds, pet watering dishes, birdbaths, potted plants, old tires, empty containers, toys and clogged rain gutters and French drains. Eliminate standing water promptly, as mosquitoes can grow from egg to adult in as little as seven days. Dallas residents may receive free mosquito dunks at Code Compliance Services District Offices while supplies last.

Code District Offices:

3112 Canton St. (Code Administration) O: 214-670-5708
7901 Goforth Rd. (North Central, North East) O: 214-670-9703
