Request:

Consideration of amending Chapters 51 and 51A of the Dallas Development Code, with consideration to be given to amending Section 51-4.216.1, "Lodging Uses" and Section 51A-4.205 "Lodging Uses" to define a new use called "Short-term rental lodging" and related regulations.

Recommendation:

Staff recommends that the Committee determine the appropriate zoning code amendments and forward a recommendation to City Plan Commission.

Content:

- Appendix 1 – Performance standards currently in Dallas Code of Ordinances
- Appendix 2 – Use Tables
- Appendix 3 – Land Use Categories
- Appendix 4 – Mixed Use Districts
- Appendix 5 – Comparison Cities, revised to include additional cities

Background:

A code amendment was initiated by City Plan Commission (CPC) at the December 2, 2021 meeting. CPC authorized a hearing to consider specifically defining a new use, "Short-term rental lodging" within the Lodging Uses sections of Chapters 51 and 51A, as well as related regulations.

At the June 23, ZOAC meeting, staff was directed to provide additional information as follows:

- Provisions that may be appropriate in zoning that would regulate environmental performance like noise, light, security similar to those that would be included in a Specific Use Permit
 - *Additional appendix that includes all current regulations in the Dallas Code of Ordinances in various chapters and articles.*
- Evaluate provisions for multifamily that may be appropriate based on other districts in the code
 - *Additional appendix that includes Chapter 51A provisions for mixed-use projects*
- Provisions to regulate platforms that may be appropriate in zoning
 - *Provisions for the platform regulation are currently under consideration to be included in the registration and regulation ordinance*

Section 51A-6.102 Noise Regulations

https://codelibrary.amlegal.com/codes/dallas/latest/dallas_tx/0-0-0-37527

(a) General provisions.

(1) A person may not conduct a use that creates a noise level that exceeds the levels established in Subsections (b) through (e) or that exceeds the background level by five dB(A), whichever is greater.

(2) A sound level meter that meets the standards of the American Standards Association must be used to determine whether the level of noise violates this section. The instrument must be maintained in good working order. A calibration check should be made prior to and following any noise investigation.

(3) Traffic, aircraft, and other background noises are not considered in measuring noise levels except when the background noise level is being determined.

(4) For purposes of this section, any identifiable portion of a planned development (PD) district governed by a distinct set of use regulations is considered to be a separate zoning district. If the PD district or a portion of the district is limited to uses permitted in an expressly stated zoning district, the PD district or portion of the district is considered to be that zoning district; otherwise it is considered to be:

(A) an MF-3(A) zoning district if it is restricted to residential uses and those nonresidential uses permitted in a residential district; otherwise

(B) an IM zoning district if it allows one or more uses that are only permitted in that district; otherwise

(C) an IR zoning district if it allows one or more uses that are only permitted in a CS, LI, or IR district; otherwise

(D) if it does not fit into one of the above categories, an MU-3 district.

(5) The requirements of this section do not apply to:

(A) mobile sources;

(B) construction/demolition activities regulated by [Chapter 30](#);

(C) special events for which a special events permit is issued under [Chapter 42A](#);

(D) sound generating equipment or apparatus to warn the public of an emergency or for public safety;

(E) noise from use-related loading/unloading operations that impact residential areas when conducted during daytime hours; or

(F) the following activities, as long as they are conducted between the hours of 7:00 a.m. and 10:00 p.m., Monday through Friday, and between the hours of 8:00 a.m. and 7:00 p.m. on Saturday, Sunday, and legal holidays as a normal function of a permitted use and the equipment is maintained in proper working condition:

(i) Lawn maintenance.

(ii) Repair of personal use vehicles.

(iii) Home repair of place of residence.

(b) Permissible sound pressure level in WR without a shopfront overlay and residential districts.

(1) In a WR without a shopfront overlay or residential district, a person may not conduct a use so as to create a sound pressure level on the bounding lot line that exceeds the decibel limits contained in the following table:

Maximum Permissible Daytime Decibel Limits at the Bounding Lot Line of a WR without a Shopfront Overlay or Residential District		
		<i>A Scale</i>
<i>Decibel</i> <i>(dBA re 0.0002 Microbar)</i>	<i>Limit</i>	56

(c) Permissible sound pressure level in office, retail, mixed use, multiple commercial, P(A), WR with a shopfront overlay, and WMU districts.

(1) In an office, retail, mixed use, multiple commercial, P(A), WR with a shopfront overlay, or WMU district, a person may not conduct a use so as to create a sound pressure level on the bounding lot line that exceeds the decibel limits contained in the following table:

Maximum Permissible Daytime Decibel Limits at the Bounding Lot Line of an Office, Retail, Mixed Use, Multiple Commercial, P(A), WR with a Shopfront Overlay, or WMU District

[omitted for brevity]

(f) Noise level adjustments.

(1) The maximum permissible noise levels contained in Subsections (b)(1), (c)(1), (d)(1), and (e)(1) are subject to the following adjustments:

Noise is present at nighttime: Subtract 7db

Noise is impulsive (meter reading changes at a rate greater than 10 decibels per second: Subtract 7db

Noise Has An “On Time” Of No More Than:	And an “Off Time” Between Successive “On Times” Of At Least:	
0.5 Minutes	½ Hour /	Add 10 Decibels to permitted level
5.0 Minutes	1 Hour /	
10.0 Minutes	2 Hours /	
20.0 Minutes	4 Hours /	

(2) “Off-time” is when the level of the primary noise being measured does not exceed that of the background noise by more than five dB(A). (Ord. Nos. 19455; 19786; 19995; 27495; 29424; [30895](#))

At or before the end of the one-year period, the shelter shall either file an application for an SUP or cease operations. A shelter that files an application for an SUP in accordance with this subparagraph may remain operating while the application is pending before the city plan commission or city council; however, if the application is denied or withdrawn, the shelter shall cease

operations no later than 60 days after the date the final decision is made to deny the application, or the date the application is withdrawn, whichever is applicable.

Appendix 4 – Mixed Use Districts

Selected excerpts:

SEC. 51A-4.125. MIXED USE DISTRICTS.

(a) *In general.* Single or multiple uses may be developed on one site in a mixed use district as in any other district; however, in order to encourage a mixture of uses and promote innovative and energy conscious design, efficient circulation systems, the conservation of land, and the minimization of vehicular travel, density bonuses are awarded to developments that qualify as “mixed use projects” as defined in Subsection (b). If a development does not qualify as an MUP, it is limited to a “base” dwelling unit density and floor area ratio. When a development qualifies as an MUP, it earns a higher maximum dwelling unit density and floor area ratio and, in some instances, a greater maximum structure height. Additional FAR bonuses are incrementally awarded to encourage the inclusion of “residential” as part of an MUP. The exact increments of increase vary depending on the actual use categories mixed and the district that the MUP is in. For more information regarding the exact increments of increase, consult the yard, lot, and space regulations in this section governing the particular district of interest.

(b) *Qualifying as a mixed-use project.* To qualify as a MIXED USE PROJECT (MUP) for purposes of this section, a development must contain uses in two or more of the following categories, and the combined floor areas of the uses in each category must equal or exceed the following percentages of the total floor area of the project:

MU-1 AND MU-1(SAH) DISTRICTS	
Use Category	% of Total Floor Area

Office	15%
