RESIDENTIAL REMODEL S/RENOVATIONS AND THE ENERGY CODE

	REGIDENTIAL REMODELS, RELIGIO VALISHO AND THE ENERGY GODE		
Property Address:			
Αŗ	oplicant: Phone: Email:		
NOTE TO APPLICANT: Please complete this information sheet as accurately as possible. A customer service plans examiner can assist you if necessary. By checking each requirement, you are stating that you have supplied correct and complete information. If the required information is not contained in the submitted documents, you will be notified of the deficiency. Failure to supply the additional requested information may result in your application being delayed, denied, and eventually discarded. If you select YES for any of the items below, you may need to hire a Certified Third-Party Energy Code Provider for energy code plan review and inspections. An Energy Code Compliance Certificate must be provided prior to the first requested inspection (T-Pole excluded). City of Dallas staff must sign off on the "Energy Inspection" process before the building final inspection may be approved.			
	Description	YES	NO
1	The energy use is increasing		
2	Roof replacement: Removing the existing roof covering, repairing any damage substrate, and installing a new roof. Note: Roofs without insulation in the cavity and where the sheathing or insulation is exposed during reroofing shall be insulated either above or below the sheathing.	'	
3	New heating, cooling, and duct systems Duct blaster performance test required		
4	Adding new exterior doors and windows		
5	Change from nonconditioned or low-energy space to conditioned space This would include a garage conversion - an energy code trade is required.		
6	Replacing existing windows and/or doors of same size		
7	New lighting systems		
8	Replacement of more than 10% of the luminaires (light fixtures) in a space		
9	Construction where the existing roof, wall or floor cavity is exposed. Note on plans: fill cavities with insulation		
	Definitions from 2021 IECC Residential Energy Chapter		
Rer	roofing : The process of recovering or replacing an existing roof covering. See 'roof recover' and 'roof re	eplacement.	
Roc	of recover: The process of installing an additional roof covering over an existing roof covering without f covering.	-	existing
Roc	of repair: Reconstruction or renewal of any part of an existing roof for the purpose of its maintenance.		
	of replacement: The process of removing the existing roof covering, repairing any damaged substrate for the covering	, and installing	a new
Not	e: If the applicant selects "Yes" for number 6 and/or 9, Energy code (EC) trade is NOT required.
