

# Engineering Division Building Permit/Plat Release General Process Exhibit

CITY OF DALLAS

The following flow chart exhibit is a *general* guideline for the plat release and building permit release as it relates to Sustainable Development and Construction - Engineering, i.e. Paving and Drainage, Water/Wastewater, and Surveying. **Each project's review process contains multiple variables which affects its critical path.** Engineering's release is only one component of the overall building permit review process and it is the developer's responsibility to obtain approval from all other required sections & departments. Please note that **NO EARLY RELEASE IS AVAILABLE FOR SHARED ACCESS DEVELOPMENT.**
