vs.

**Appeal to the City Plan Commission**

**LANDMARK COMMISSION,**  
Appellee.

**BRIEF IN SUPPORT OF THE LANDMARK COMMISSION**

TO THE HONORABLE COMMISSIONERS OF THE CITY PLAN COMMISSION:

Now comes the City of Dallas Landmark Commission (“Landmark”) and submits this brief in support of Landmark’s decision to deny Appellant’s application for a certificate of appropriateness.

**A. Facts and Background**

The structure<sup>1</sup> in question is a noncontributing apartment building located at 1001 North Crawford Street (the “structure”) which is in the Lake Cliff Historic District (“Lake Cliff”). (*See* Record § 3, p. 13.)<sup>2</sup> Most of the apartment buildings in Lake Cliff were constructed in the 1920’s and 1930’s and contribute to the feel of Lake Cliff. (*See* National Register of Historic Places Continuation Sheet – Lake Cliff Historic District; Ex. A at p. 11.) However, the structure was built in 1945 and is “larger and less sensitive to the historic ambiance of the district.” (*See* National Register of Historic Places Continuation Sheet – Inventory of Properties – Lake Cliff Historic District; Ex. A at p. 7.)

---

<sup>1</sup> The Dallas Appraisal District indicates that the property is owned by 1001 Crawford LLC.

<sup>2</sup> All Record references are to the section number and the page number in the pdf copy of the Record.

Barrett Linburg of Savoy Equity Partners (hereinafter collectively referred to as “Savoy”) makes this appeal to the City Plan Commission (“CPC”). (*See* Record p. 1.) On January 22, 2024, Savoy submitted eight requests for a certificate of appropriateness (“CA”) to Landmark relating to balconies, doors, windows, shutters, trim, railings, and light fixtures. (*See* Record § 7, p. 114.) On March 4, 2024, Landmark approved all the requested CAs, but some of the items were approved with conditions. (*See* Landmark Minutes for March 4, 2024; Ex. B at p. 7-8.) Landmark approved Savoy’s request for a CA to replace the 1960’s era aluminum windows with vinyl windows conditioned on the windows being wood. (*See id.* at 7.) Landmark noted that the required condition was necessary so that the windows complied with the Lake Cliff preservation criteria. (*See id.*)

On March 5, 2024, Savoy submitted another request to Landmark for a certificate of appropriateness to use vinyl windows to replace the existing aluminum windows. (*See* Record § 1, p. 5-6.) The issue went before Landmark a second time on April 1, 2024, and staff recommended that the windows be replaced conditioned on the windows being wood, with no vinyl and cladding. (*See* Record § 2, p.10.) Staff determined that vinyl windows are not compatible because Lake Cliff would be adversely affected based on the lack of compliance with Sections 5.2 and 5.3 of the Lake Cliff preservation criteria. (*See id.* & § 3 at p. 10.) Section 5.2 recommends replacement of windows that have been altered and no longer match the historic appearance. (*See id.* § 6 at p. 83.) Section 5.3 recommends replacement of windows that express muntin and mullion size, light configuration, and material to match the historic. (*See id.*)

The Lake Cliff task force recommended that vinyl windows be approved because there are examples of vinyl windows in Lake Cliff and the financial burden of wood windows. (*See id.* at § 5 at p. 45.) Savoy’s representative requested that Landmark either approve or deny with no conditions to allow for an appeal to the CPC. (*See Id.* at § 5 at p. 46.) During the April 1, 2024

hearing, Landmark Commissioners noted that cost of the project should not influence their decision. (*See Id.* at § 5 at pp. 48 & 53.) After a substantive discussion related to the request, Landmark denied the request for approval of vinyl windows. (*See id.* at § 1 at p. 7 & §5 at p. 56.) Savoy now appeals the April 1, 2024 decision of Landmark to the CPC. (*See id.* p. 1.)

## **B. The Historic Preservation Program and Staff Recommendations**

The purpose of the historic district preservation program is to protect, enhance, and perpetuate places that represent distinctive and important elements of the City of Dallas' historical and architectural history, and to preserve diverse architectural styles, patterns of development, and design preferences reflecting phases of the City of Dallas' history. Dallas, Tex., Code § 51A-4.501(a).

Due to the quasi-judicial nature of Landmark proceedings, Landmark Commissioners are restricted from visiting properties that have pending CA applications, so Landmark finds the preservation criteria and staff recommendations helpful in determining what proposed work is compatible with the historic overlay district and what proposed work is not compatible.

## **C. The Legal Standard**

Landmark must grant a CA for noncontributing structures if it determines that the proposed work is compatible with the historic overlay district. *Id.* § 51A-4.501(g)(6)(C)(ii). At the April 1, 2024, Landmark hearing, Savoy had the burden of proof to establish the necessary facts to warrant a favorable action. *Id.* § 51A-4.501(g)(6)(B).

Regarding appeals to the CPC, the City Council provided guidance and mandated that the CPC give deference to Landmark's decision. *Id.* § 51A-3.103(a)(1). Their reasoning is based on their requirement that all Landmark Commissioners have expertise in historic preservation. *Id.* § 51A-4.501(o) (requiring that the CPC give deference to the landmark commission decision and may not substitute its judgment for the landmark commission's judgment).

When the CPC hears an appeal from Landmark, it may not substitute its judgment for the judgment of Landmark, but, rather, shall determine if Landmark erred in its decision. *Id.* § 51A-4.501(o)(1). The CPC is required to affirm the decision of Landmark unless it finds that the decision: “(A) violates a statutory or ordinance provision; (B) exceeds the [L]andmark [C]ommission’s authority; or (C) was not reasonably supported by substantial evidence considering the evidence in the record.” *Id.* § 51A-4.501(o)(2).

Here, there is no violation of a statutory or ordinance provision. Nor did Landmark exceed its authority as the Dallas Development Code specifically grants Landmark jurisdiction to approve, deny with prejudice, or deny without prejudice the CA and may impose conditions on the CA. *Id.* § 51A-4.501(g)(6)(B). Therefore, this appeal considers whether there is substantial evidence in the record to support the decision of Landmark.

#### **D. Argument**

The record in this case is clear and there is substantial evidence to support Landmark’s decision. Landmark’s reasoning cited during the hearing were consistent with staff recommendations.

The goal of the preservation program is to preserve the historical design elements of buildings in Lake Cliff and not approve design elements that make a building less conforming with the preservation standards. With regard to the specific issue in this appeal, the Lake Cliff preservation criteria require replacement of windows when they “have been altered and no longer match the historic appearance” with windows made of “material” that matches the historic nature of Lake Cliff. (*See* Record at § 6 at p. 83; Sections 5.2 & 5.3 of the Lake Cliff preservation criteria).

Savoy argues that the proposed vinyl windows are compatible with Lake Cliff. (*See* Appellant Brief to CPC). However, they are not compatible as explained by City Staff in their analysis:

The existing windows are likely not original. The building is late 1940s while the windows are circa 1960s. The 1-over-1 configuration is acceptable, but again staff recommends wood instead of vinyl. While the building may be noncontributing, a general rule of thumb traditionally used is to not make a noncontributing structure *more* noncontributing. Therefore, the appropriate window for a 1940s building would be wood. Staff recommends wood under the same criteria as above in Item #2.

(*See Record at § 7, p. 120.*)

Savoy further argues that they are “more attractive” than the 1960’s era aluminum windows. (*See Appellant Brief to CPC*). However, attractiveness compared to windows that are not compatible with the Lake Cliff preservation criteria is not the standard. Landmark clearly made its determination about whether the proposed windows were compatible with the Lake Cliff preservation criteria. (*See Record at § 5 at p. 53.*) Similarly, whether the proposed vinyl windows are “similar in appearance” to other windows in Lake Cliff is not the criteria considered by Landmark. (*See Appellant Brief to CPC*). Compatibility with the criteria is the issue and the Commissioners discussed whether the vinyl windows over wood windows were compatible. (*See Record at § 5 at pp. 47, 50-51.*)

Savoy claims that Landmark made no arguments or findings showing that the vinyl windows are incompatible. (*See Appellant Brief to CPC*). However, part of the record contains both staff recommendations that the proposed vinyl windows are not compatible with the preservation criteria (*see Record at § 7, p. 120 & § 2, p. 10*) and the substantive discussion of the Landmark Commissioners related to the vinyl windows and their appearance compared to wood (*see id.* at § 5 at pp. 47, 50-51).

Finally, Savoy argues that the Lake Cliff neighborhood task force supported the proposed vinyl windows. (*See Appellant Brief to CPC*). However, the task force recommendation is merely persuasive as the rules for Landmark only empower to the task force to “provide technical

expertise” and “make recommendations.” (See Landmark Commission Rules of Procedure at § 14(A) (1) & (2)).

**E. Conclusion**

Because Landmark did not violate a statutory or ordinance provision, did not exceed its authority, and its decision is reasonably supported by substantial evidence in the record, the CPC must affirm the decision of Landmark. The CPC must give deference to Landmark, even if the CPC may have come to a different conclusion than Landmark. Because the CPC may not substitute its judgment for that of Landmark, the denial of the proposed vinyl windows must be approved.

Respectfully submitted,

CITY ATTORNEY OF THE CITY OF DALLAS  
Tammy L. Palomino  
City Attorney

National Park Service****National Register of Historic Places  
Continuation Sheet**Section number 7 Page 1Lake Cliff Historic District (Oak  
Cliff MPS) Dallas, Dallas County, Texas**DESCRIPTION:**

The Lake Cliff Historic District lies in the northeastern part of the original Oak Cliff townsite on relatively high, flat terrain overlooking downtown Dallas, roughly 1-1/2 miles to the north. The historic district covers approximately 75 acres including a public park with a central man-made lake dating from c.1888. The district also includes all the residential half-blocks fronting the park on the east (Blaylock Drive), south (E. 5th Street) and west (N. Crawford Street). The boundary extends north to Zangs Boulevard to include the 13-story Lake Cliff Tower Hotel (1929-1932, 329 E. Colorado, Site No. K7-390) and part of the adjacent Samuell Colorado Park. However, the 51 Contributing properties are primarily 1920s to 1930s, 1- and 2-story houses and apartment buildings featuring craftsman and Prairie School influences. The remaining Contributing properties include Lake Cliff Park (site), Lake Cliff (structure), and a handful of early park buildings. The 11 properties listed as Noncontributing comprise those constructed after 1944 and include the Lake Cliff Park tennis courts and pool (structures) and sculpture (object).

The Lake Cliff Historic District is generally flat, except for the excavated lake, and a diverted, fieldstone-lined creek that drains into it from the southwest. A slightly depressed area in the south part of Lake Cliff Park is the site of a demolished concrete bathing pool and bath house. Large trees, low shrubs and grass lawns are found throughout the district (Photo 1).

The park is the central focus of the district and the surrounding residential buildings are oriented to it. Oak and hackberry trees stand in natural clusters along the creek, while formal trees and ground cover plantings surround the lake. A sense of formality is suggested by regularly spaced hackberry trees along the west, south and east sides of the park. Concrete sidewalks and curbs surround the park, and curving walks lend public access to its grounds. Several Contributing buildings, objects, and structures are found within the park site, including Lake Cliff (Site No. AH-2) and a large Rustic style open-air pavilion and fountain complex to the northeast (Site No. AH-1). Small Romantic and Rustic style buildings dot the southeast side of the park.

The historic architecture surrounding the park is a mixture of 1- and 2-story single-family bungalows, four-square houses and apartment buildings. However, Oak Cliff's premier high-rise, the 13-story Cliff Towers Hotel (1929-1932; Photo 2) dominates the district to the north with its massing and solitary setting. The Mediterranean building (now known as the Lake Park Nursing Home) faces south toward E. Colorado Boulevard and Lake Cliff Park. The eclectic, highly detailed hotel is situated among trees, grass and a surface parking lot that do little to break its visual association with the park.

Lake Cliff Historic District (Oak  
Cliff MPS) Dallas, Dallas County, Texas

Section number \_\_\_\_\_ Page \_\_\_\_\_

---

Southeast of the Hotel, facing Blaylock Street and near Colorado Street are several 2-story (1920s; 824, 826, 832, 834 Blaylock Drive; Site Nos. K7-7397 to K7-7400; Photo 3) brick apartment buildings. The largely unadorned, square forms face west and several have fabric or metal awnings over their front windows. These buildings are representative of other small apartment complexes found throughout the district.

Further south on Blaylock are several 1930s craftsman bungalows and one 1922 dwelling set far back from the street. East 5th Street has several exceptional high style houses among its more modest dwellings. Frame and masonry construction are found throughout the district, representing a variety of stylistic influences.

The historic district's most conspicuous Noncontributing element, a large condominium block built in the 1980s, is at 230 E. 5th Street. Along the western edge of the park, N. Crawford Street is lined with 1930s and 1940s apartment blocks, several bungalows and a small, new apartment complex (1015 N. Crawford, Site No. K7-7178).

The character of the district is set by the historic components of the park, both landscaping and architectural elements, and the park's placement within the community as an integral, evolved component of the neighborhood. The early 20th century buildings around it serve to reinforce the park's historic ambience. The impact of the district's Noncontributing properties is diminished by unifying landscaping elements.

## STATEMENT OF SIGNIFICANCE:

The Lake Cliff Historic District includes much of the land that previously served as an early 20th-century amusement park. The district is significant at a local level for its association with the development of the Oak Cliff community, and its excellent state of architectural preservation. It relates to the historic context *Suburban Development in Oak Cliff, Dallas, Texas, 1887-1944*. The historic district is representative of the promotional schemes that early developers of Oak Cliff utilized to encourage greater settlement of the Dallas suburb. The period of significance extends from the construction of the park c.1888 to 1944, fifty years before submission of the nomination. The district is eligible for inclusion in the National Register under Criterion A in the area of Community Planning and Development for its association with efforts to attract residents to the greater Oak Cliff community during its early years. It meets Criterion C in the area of Architecture as an excellent collection of early 20th century single- and multi-family dwellings that typify Oak Cliff's growth in the 1920s and 1930s.

Most of the Lake Cliff Historic District lies within the original township of Oak Cliff, officially established on October 31, 1887.(see plat map) At that time, T.L. Marsalis and his partner John S. Armstrong began operating a steam-powered streetcar service from downtown Dallas to Oak Cliff. Once the line crossed the Trinity River, it branched into two sections. One part headed south toward an area that became Oak Cliff's commercial center. The other branch traveled along Colorado Boulevard, extending to Spring Lake (later known as Lake Cliff), a large man-made pond in northern Oak Cliff. The two lines were eventually reunited when a loop was completed in 1904 (see historic context statement).

The commercial center and Lake Cliff stops were important in Oak Cliff's early history. They figured prominently in Marsalis' promotional efforts to encourage greater interest in and development of the suburb. Marsalis stressed Oak Cliff's amenities such as its healthy environment and budding commercial center near Oak Cliff Park (now Marsalis Park) to the south. Lake Cliff also demonstrated his argument quite well.

A social club, known as the Llewellyn Club, excavated the lake and built a clubhouse c.1888. Intended as a recreational area and only three blocks away from the streetcar line, the surrounding property nevertheless remained undeveloped for two decades (McDonald; Dallas County Plat). The lake became a focal point of the development and has remained unchanged, and is considered a Contributing structure in the district. Dr. Robert Spann purchased all of the property in 1899 and converted the old club house into a sanitarium which he operated for several years (McDonald 1978:227; Dreesen 1939:n.p.).

National Park Service

## National Register of Historic Places Continuation Sheet

Section number 8 Page 6

Lake Cliff Historic District (Oak  
Cliff MPS) Dallas, Dallas County, Texas

In 1906, Oak Cliff businessman Charles A. Mangold and John F. Zang acquired land around Lake Cliff, anticipating their purchase of the "Spann Park and Sanitarium" that year. By investing heavily into the park, they subsequently transformed the area into a playground having "all the marvels, countless curiosities, and spectacular features of the great amusement resorts of the country." Rather than create a "playground" for citizens of Dallas, the men wanted to encourage Oak Cliff's development and drive up the value of land they had purchased previously.

Mangold also led efforts to construct a viaduct for the streetcar from Dallas across the river floodplain to Oak Cliff. This would provide additional access from Dallas to the dependent suburb, heightening its appeal and the value of his property.

The new amusement park at Lake Cliff proved immensely popular. Included among Lake Cliff Park's attractions were Shoot-The-Chutes (similar to today's log rides), Circle Swing, roller coaster, natatorium, skating rink which could accommodate 2000 patrons, and a 2500-seat Casino, in which "first class attractions" such as Al Jolson and Eddie Cantor performed.

The Dallas-based architectural firm of Lang and Witchell designed the buildings and structures in the park, and they were erected by local contractor L.B. Westerman. The Spann Sanitarium (former Llewelyn clubhouse) was moved in 1909 to the 300 block of E. 6th Street, just beyond the boundaries of the Lake Cliff Historic District, where it served as Mangold's home (Dallas Public Library vertical files).

Mangold's efforts were successful to some extent, as increased activity in the area resulted in the construction of several residences in the Miller and Stemmons and Crystal Hill additions. Unlike other parts of Oak Cliff however, this growth occurred in rather piecemeal fashion.

Despite its popularity, the Lake Cliff Amusement Park proved too expensive to operate and the land was sold to the city in 1913 (Dreesen 1939:n.d.). In 1921 many of the rides and buildings in the southwestern section of the park were razed to make room for a swimming pool and bathhouse (which themselves were subsequently demolished). A 1910s brick pumphouse building is the only remaining feature of the aquatic facilities.

Upon the decline of the amusement park came the reinterpretation and development of the park as a naturalistic site. Park buildings figured in this interpretation, including a c.1920 brick public restroom (Site No. AH-3; Photo 4), 1934 WPA stone arcaded shelter and formal garden with stone pavilions (Site No., AH-1; Photo 5). The park's new role apparently encouraged residential development around the park perimeter, beginning in the 1920s.

Section number 8 Page 7

Lake Cliff Historic District (Oak  
Cliff MPS) Dallas, Dallas County, Texas

Bungalows and four-squares with Tudor Revival, Prairie School or craftsman detailing are found throughout the district. The house at 520 East 5th Street Tudor Revival detailing such as a steeply pitched, gabled roof with cross gables, massive chimney, and tall, narrow windows with multi-pane glazing (McAlester, pp. 354-55, 452-53). Prairie School details on the house at 414 East 5th Street (1920, Site No. K7-746; Photo 6), include the low-pitched hipped porch and main roof, widely overhanging eaves, and large square pillars. These features combine to emphasize the horizontal lines of the building.

Craftsman detailing is evident on the houses at 410-402 East 5th Street (1920, Site No. K7-745 to K7-743; Photo 6), including a low-pitched gabled or hipped roof, unenclosed overhanging eaves, exposed brackets and rafters, and tapered square porch columns. Another excellent example of craftsman detailing can be found on the bungalow at 402 East 5th Street (1925, Site No. K7-743; Photo 7), including the low-pitched, front gabled roof and partial front porch with square columns.

Most of the small apartments houses constructed in the 1920s and 1930s, such as the Tudor Revival style building at 816 Blaylock (1925, Site No. K7-7395; Photo 8) contribute to the feel of the district by exhibiting form and massing similar to the single-family houses. Noncontributing apartment complexes constructed after 1944 tend to be larger and less sensitive to the historic ambiance of the district. For example, the 3-story apartment building at 230 East 5th Street lacked any sensitivity to the style, massing or setbacks of nearby houses (Photo 9).

The Cliff Towers Hotel is separated from the residential areas to the south by East Colorado Boulevard and the park. A generous lawn fronts the building, creating a park-like setting. Therefore, the building's setting is appropriate to its proximity to the park and its 13-story height does not adversely impact the smaller Contributing properties.

The hotel was first planned in 1926 as a 10-story apartment complex designed by Thompson and Swaine architects. (Dallas Times Herald, June 19, 1926, p.10) The project failed with the construction partially complete, but was repurchased and revived by E.W. Morten and Charles Mangold in 1929, the latter had sold the property in 1924 to the first developers. Albert S. Hecht and Robert C. Williams of Dallas and Chicago redesigned the building. The original contractor, Bellows Maclay, apparently continued its work in 1929 and completed the building in 1932. Built at the intersection of two major thoroughfares, N. Zangs Boulevard and E. Colorado Boulevard, the hotel/apartment building in its Mediterranean style commanded attention of travelers through the Oak Cliff area. Zangs Boulevard crosses the Trinity River, connecting Dallas with State

---

Highway 80 (Davis Street), also known as the Dallas/Fort Worth Turnpike. The hotel's relaxed setting, and its proximity to downtown Dallas, must have made it very attractive to the visitors.

The development of the historic district's built environment, and its naturalistic setting are the direct result of the marketing and suburban development of Oak Cliff in the Dallas area during the late 19th and early 20th centuries. By the 1940s virtually all physical remains of the amusement park were gone (McDonald 1978:227). While Lake Cliff Park has evolved over the years (including the recent addition of a baseball park and tennis courts), its overall integrity has not been compromised. Other Contributing properties within the historic district retain a high degree of integrity. Noncontributing properties make up a very small portion of the total and do not detract substantially from the overall feel of the district.

Boulevard until reaching the northeast corner of Block 39/3020, lot 9, City of Dallas. Thence south along said lot and continuing until reaching the southeast corner of Block 39/3020, lot 15, City of Dallas. Thence west along said lot approximately 30 feet. Thence south across Comal Street and continuing along the eastern property line of Block 40/3021, City of Dallas, and crossing Sabine Street until reaching the southeast corner of Block 59/3040, lot 2, City of Dallas. Thence east approximately 30 feet. Thence south until reaching the right-of-way of 5th Street. Thence west approximately 30 feet. Thence south along the alley between Starr Street and Marsalis Avenue until reaching the point of beginning.

## JUSTIFICATION OF BOUNDARIES - LAKE CLIFF HISTORIC DISTRICT

The Lake Cliff Historic District includes a cohesive collection of single-family houses and a 13-story hotel/apartment building that developed around Lake Cliff Park, an early 20th century amusement center that later became a city park. Because of the significant role the park played in the neighborhood's development, the park is included in the district. The greatest and most significant concentration of houses is along the 300 to 500 blocks of E. 5th Street. Property on the west side of the park and facing onto Crawford Street contains a large number of 2-story multiple-family apartment buildings which have little physical similarities with Contributing buildings in the historic district. The east side of the district includes a mixture of both historic and nonhistoric single- and multiple-family dwellings that conform to the architectural setting and period of significance of the district and thus are included within the boundaries. Areas farther east and south show little continuity of the properties immediately facing the park and are not included in the district.

Commissioner Hajdu, District 10	

*\*Note: Members of the Landmark Commission participated in this meeting by video conference.*

**STAFF PRESENT: [7]**

Theresa Carlyle, Asst. City Attorney	Adrian McClendon, Code Enforcement Officer, Historic Preservation
Rhonda Dunn, Sr. Planner, Historic Preservation	Kate Singleton, Preservation Officer
Elaine Hill, Landmark Commissioner Coordinator	Marcus Watson, Sr. Planner, Historic Preservation
Christina Mankowski, Sr. Planner, Office of Historic Preservation	

Chair Montgomery called the briefing meeting to order at 9:03a.m. with a quorum of the Landmark Commission present.

The meeting agenda, posted in accordance with Chapter 551, "OPEN MEETINGS", of the Texas Government Code was presented.

**PUBLIC SPEAKERS**

The Landmark Commission provided "public speaker" opportunities for individuals to comment on matters that were scheduled on the agenda or to present concerns or address issues that were not matters for consideration listed on the posted meeting agenda.

LANDMARK COMMISSION MINUTES  
 March 4, 2024

**MEETING ACTIONS**

Chair Montgomery, called the public hearing to order at 1:04p.m., with a quorum of the Landmark Commission present. Elaine Hill, the Landmark Commission Coordinator conducted a roll call.

**Motion was made for Commissioner Rothenberger to serve as Vice Chair**

Maker:	Montgomery				
Second:	Guest				
Results:	15/0				
		Ayes:	-	15	Anderson, Fogleman, Gay, Guest, Hinojosa, Livingston, Montgomery, Offutt, Preziosi, Sherman, Spellicy, Taylor, Reaves, Renaud, Rothenberger
		Against:	-	0	
		Absent:	-	1	Hajdu
		Vacancies:	-	1	District 15

The Chair declared the motion approved by the Landmark Commission.

**Motion was made to approve the February 5, 2024, Regular Meeting Minutes.**

Maker:	Rothenberger

		Ayes:	-	15	Anderson, Fogleman, Gay, Guest, Hinojosa, Livingston, Montgomery, Offutt, Preziosi, Sherman, Spellicy, Taylor, Reaves, Renaud, Rothenberger
		Against:	-	0	
		Absent:	-	1	Hajdu
		Vacancies:	-	1	District 15

The Chair declared the motion approved by the Landmark Commission.

**Motion was made to approve the following Consent items C1- C3 following staff recommendations.**

Maker:	Rothenberger				
Second:	Fogleman				
Results:	15/0				
		Ayes:	-	15	Anderson, Fogleman, Gay, Guest, Hinojosa, Livingston, Montgomery, Offutt, Preziosi, Sherman, Spellicy, Taylor, Reaves, Renaud, Rothenberger
		Against:	-	0	
		Absent:	-	1	Hajdu
		Vacancies:	-	1	District 15

The Chair declared the motion approved by the Landmark Commission

LANDMARK COMMISSION MINUTES  
 March 4, 2024

Motion was made to rearrange the Discussion agenda to hear items CR1, CR2, CR3, D2, D3, D4, D5, D6, D1, D7, D8 and CR4.

Maker:	Rothenberger				
Second:	Sherman				
Results:	15/0				
		Ayes:	-	15	Anderson, Fogleman, Gay, Guest, Hinojosa, Livingston, Montgomery, Offutt, Preziosi, Sherman, Spellicy, Taylor, Reaves, Renaud, Rothenberger
		Against:	-	0	
		Absent:	-	1	Hajdu
		Vacancies:	-	1	District 15

The Chair declared the motion approved by the Landmark Commission.

**CONSENT ITEMS**

**1. 2501 FLORA ST**

Booker T Washington  
 (Arts Magnet) High  
 School  
 CA234-198(RD)  
 Rhonda Dunn

1. That the request for a Certificate of Appropriateness to replace non-historic windows on protected facades with all wood windows (total 91) be **approved** in accordance with drawings and specifications dated 2/1/2024. The proposed work is consistent with preservation criteria Sections 2.9 and 2.12 pertaining to fenestration(s) and openings; the standards in City Code Section 51A-4.501(g)(6)(C)(i) for contributing structures; and the Secretary of the Interior's Standards for Rehabilitation.
2. That the request for a Certificate of Appropriateness to repair exterior doors (total 3) on protected facades be **approved** in accordance with drawings and specifications dated 2/1/2024. The proposed work is consistent with preservation criteria Sections 2.9 and 2.12 pertaining to fenestration(s) and openings; the standards in City Code Section 51A-4.501(g)(6)(C)(i) for contributing structures; and the Secretary of the Interior's Standards for Rehabilitation.

**2. 706 HUNTLEY ST**

Junius Heights Historic District  
 CA234-194(CM)  
 Christina Mankowski

That the request for a Certificate of Appropriateness to alter rear elevation by removing two windows and replacing existing door with original exterior door be **approved** in accordance with materials and specifications dated 1/12/2024. The proposed work is consistent with preservation criteria Sections 4.2; the standards in City Code Section 51A-4.501(g)(6)(C)(ii) for noncontributing structures; and the Secretary of the Interior's Standards.

**3. 307 S ROSEMONT AVE**

Winnetka Heights  
 Historic District  
 CA234-191(MW)  
 Marcus Watson

1. That the request for a Certificate of Appropriateness to renovate the rear of the main structure and construct

LANDMARK COMMISSION MINUTES  
March 4, 2024

- a rear addition, including a basement under the addition and deck be **approved** in accordance with materials, drawings and specifications dated 12/23/23 and revised 2/16/24 **with the conditions** that all materials, details, colors, and design match the existing structure and that new windows be all wood, no cladding. Implementation of these conditions would allow the proposed work to be consistent with the preservation criteria Sections 51P-87.111(a)(2), (a)(3), (a)(10), (a)(14), and (a)(17)(F), the standards in City Code Section 51A-4.501(g)(6)(c)(i) for contributing structures, and the Secretary of the Interior's standards.
2. That the request for a Certificate of Appropriateness to relocate seven (7) windows and to remove two (2) windows, covering the openings with matching siding be **approved** in accordance with materials, drawings and specifications dated 12/23/23 and revised 2/16/24 **with the conditions** that all materials, details, colors, and design match the existing structure. Implementation of these conditions would allow the proposed work to be consistent with preservation criterion Section 51P-87.111(a)(F), the standards in City Code Section 51A-4.501(g)(6)(c)(i) for contributing structures, and the Secretary of the Interior's standards.
  3. That the request for a Certificate of Appropriateness to repaint main structure using the same colors and placement as existing (Body: SW7052 "Gray Area", Trim: SW7036 "Accessible Beige", and Accent: SW7592 "Crabby Apple") be **approved** in accordance with materials, drawings and specifications dated 12/23/23 and revised 2/16/24. The proposed work is consistent with preservation criterion Section 51P-87.111(a)(8), the standards in City Code Section 51A-4.501(g)(6)(c)(i) for contributing structures, and the Secretary of the Interior's standards.
  4. That the request for a Certificate of Appropriateness to replace the entire roof (including new addition) of main structure with be **approved** in accordance with materials, drawings and specifications dated 12/23/23 and revised 2/16/24. The proposed work is consistent with preservation criteria Section 51P-87.111(a)(8)(E), the standards in City Code Section 51A-4.501(g)(6)(c)(i) for contributing structures, and the Secretary of the Interior's standards.

1. A Certificate of Appropriateness to replace non-historic railings on faux "balconies."
2. A Certificate of Appropriateness to replace all courtyard-facing non-historic doors with fiberglass doors.
3. A Certificate of Appropriateness to replace all windows (non-historic) with 1-over-1 vinyl windows in "beige" color.
4. A Certificate of Appropriateness to remove all shutters.
5. A Certificate of Appropriateness to paint the nonmasonry elements of the building (Balconies, Trim and Doors: SW2829 "Classical White"; Accent: SW7048 "Urbane Bronze").
6. A Certificate of Appropriateness to replace railings at front waterfall steps.
7. A Certificate of Appropriateness to replace light fixtures over courtyard-facing entrances.
8. A Certificate of Appropriateness to replace light fixture to the side of outward-facing kitchen entrances.

Speaker For: Barrett Linburg  
Jennifer Dent

Against: No Speakers

**Motion**

1. That the request for a Certificate of Appropriateness to replace non-historic railings on faux "balconies" be **approved** in accordance with materials, drawings and specifications dated 2/16/24 **with the condition** that all materials be painted wood. Implementation of this condition would allow the proposed work to be consistent with preservation criteria Sections 4.1(b), 4.4, 7.1, 7.3, and 8.1; the standards in City Code Section 51A-4.501(g)(6)(c)(ii) for noncontributing structures; and the Secretary of the Interior's standards.
2. That the request for a Certificate of Appropriateness to replace all courtyard-facing non-historic doors with fiberglass doors be **approved** in accordance with materials, drawings and specifications dated 2/16/24 **with the condition** that the new doors be all wood inside and out, not fiberglass. Implementation of this condition would allow the proposed work to be consistent with preservation criteria Sections 5.2 and 5.3; the standards in City Code Section 51A-4.501(g)(6)(c)(ii) for noncontributing structures; and the Secretary of the Interior's standards.
3. **That the request for a Certificate of Appropriateness to replace all windows (non-historic) with 1-over-1 vinyl windows in "beige" color be approved in accordance with materials, drawings and specifications dated 2/16/24 with the condition that the new windows be all wood inside and out, no vinyl and no cladding. Implementation of this condition would allow the proposed work to be consistent with the preservation criteria Sections 5.2 and 5.3, the standards in City Code Section 51A-4.501(g)(6)(c)(ii) for**

**noncontributing structures; and the Secretary of the Interior's standards.**

4. That the request for a Certificate of Appropriateness to remove all shutters be **approved** in accordance with materials, drawings and specifications dated 2/16/24. The proposed work meets the standards in City Code Section 51A-4.501(g)(6)(c)(ii) for noncontributing structures and the Secretary of the Interior's standards.
5. That the request for a Certificate of Appropriateness to paint the nonmasonry elements of the building (Balconies, Trim and Doors: SW2829 "Classical White"; Accent: SW7048 "Urbane Bronze") be **approved** in accordance with materials, drawings and specifications dated 2/16/24 **with the condition** that no brick or other masonry be painted. Implementation of this condition would allow the proposed work to be consistent with preservation criteria Sections 4.4 and 4.8; the standards in City Code Section 51A-4.501(g)(6)(c)(ii) for noncontributing structures; and the Secretary of the Interior's standards.
6. That the request for a Certificate of Appropriateness to replace railings at front waterfall steps be **approved** in accordance with materials, drawings and specifications dated 2/16/24. The proposed work is consistent with preservation criterion Section 3.7; the standards in City Code Section 51A-4.501(g)(6)(c)(ii) for noncontributing structures; and the Secretary of the Interior's standards.
7. That the request for a Certificate of Appropriateness to replace light fixtures over courtyard-facing entrances be **approved** in accordance with materials, drawings and specifications dated 2/16/24. The proposed work is consistent with preservation criterion Section 3.6; the standards in City Code Section 51A-4.501(g)(6)(c)(ii) for noncontributing structures; and the Secretary of the Interior's standards.
8. That the request for a Certificate of Appropriateness to replace light fixture to the side of outward-facing kitchen entrances be **approved** in accordance with materials, drawings and specifications dated 2/16/24. The proposed work is consistent with preservation criterion Section 3.6; the standards in City Code Section 51A-4.501(g)(6)(c)(ii) for noncontributing structures; and the Secretary of the Interior's standards.

LANDMARK COMMISSION MINUTES  
 March 4, 2024

**Motion**

That the request for a Certificate of Appropriateness to construct a new two-story, single-family main structure on a vacant lot be **approved** in accordance with materials, drawings and specifications dated 2/20/24 and allowing staff to review and approve the extension of a roof from the garage to the 2-story portion of the building. The proposed work is consistent with preservation criteria Sections 2.1, 2.3, 2.5, 2.9, 2.11, 2.12, 2.13, 2.14, 2.15, 3.7 and Section 4 pertaining to new construction and additions; the standards in City Code Section 51A-4.501(g)(6)(c)(ii) for noncontributing structures; and the Secretary of the Interior's standards.

A Certificate of Appropriateness to construct a new two-story, single-family residential main structure and a one-story accessory structure on a vacant lot.

Speakers: For: Anthony Carden  
 Against: No Speakers

**Motion**

That the request for a Certificate of Appropriateness to construct a new two-story, single-family residential main structure and a one-story accessory structure on a vacant lot be **approved** in accordance with materials, drawings and specifications dated 2/20/24, **with the condition** if the applicant wishes to add a roof over the back porch area to control rainwater, that can be approved by staff. The proposed work is consistent with preservation criteria Sections 2.1, 2.3, 2.5, 2.9, 2.11, 2.13, 2.14, 2.15, 3.7 and Section 4 pertaining to new construction and additions; the standards in City Code Section 51A-4.501(g)(6)(c)(ii) for noncontributing structures; and the Secretary of the Interior's standards.

A Certificate of Appropriateness to construct a new main residential building.

Speakers: For: Giancarlo Grant

Against: No Speakers

**Motion**

That the request for a Certificate of Appropriateness to construct a new main residential building be **approved** in accordance with drawings and specifications dated 2/19/2024 **with the following conditions**: that garage be separated from the main building by a "hyphen" connector for appropriate massing; that paired windows be separated by a single mullion (as opposed to individually framed), that a brush finish concrete parking pad be installed to the rear of the garage; and that the driveway shows on the site plan to meet 18 inch foundation. Implementation of the recommended conditions would allow the proposed work to be consistent with preservation criteria Section 1.3 pertaining to site and site elements, and Section 3.2 under New Construction and Additions; the standards in City Code Section 51A-4.501(g)(6)(C)(ii) for noncontributing structures; and the Secretary of the Interior's Guidelines for Setting (District/Neighborhood).
